

Justas Gecevičius

Experience

Monstock, Front-end Developer

2023 - Today

- **Found solutions** to problems that were not able to be solved by anyone on the team for over a year.
- **Significantly improved the loading times, rendering performance and fetching of certain pages.** In some cases loading times and rendering performance **improved over 10x.**
- Reduced the initial page load time by over 50% as well as the initial page bundle size by over 60%. Increasing the **efficiency for clients** as well as **reducing the cost for the business.**
- Often responsible for **Code Reviews** and **Production merges/launches**

BIPA, Junior Innovations Manager

2021 Summer Internship

Worked mainly as an assistant to the innovations manager. Learned about negotiations and what questions to ask when working with clients.

Handled a large part of the research process for the supervising manager, therefore allowing him to focus on more value oriented tasks.

Teltonika, B2B Sales Manager

2021 Summer Internship

Education

Self-taught Front-end Developer,

2022 - Today

Using tools like FrontendMasters, freeCodeCamp and some personal projects managed to get my foot in the door and start working professionally.

Bachelors in International Business Management, B2B Lancaster University (UK) and NEOMA Business School (France)

2019-2023

Finished with first-class honors with specialisations in Supply-chain and Finance
