Technical Skills

Frontend: React, Next.js, JavaScript, TypeScript, Redux, TailwindCSS

Backend & Tools: Node.js, Electron, Docker, Git, GitLab CI/CD

Testing: Jest, Testing Library

Focus Areas: Performance and Rendering Optimization, Bundle Size Reduction

Summary

Frontend Developer specializing in React/Next.js applications, performance optimization, and scalable UI architecture. Experienced in reducing bundle sizes, improving rendering performance, leading teams and shipping production features in a fast-paced environment.

Experience

Monstock, Front-end Developer

2023 - Today

- Working with **large tables of 10000+ items**. Improved their rendering performance by over 2x. Through various **memoization techniques and rendering optimisations**.
- **Streamlining the development process** by continuously implementing **CI/CD improvements** and refining the core product components and functionality.
- **Reduced the initial page load time by over 50%** as well as the initial page bundle size by over 60%. Through the restructuring of bundles, tree-shaking improvements and improving lazy asset loading
- **Improving the team** through code reviews and feedback. As well as implementing guidelines to make the programming process and teamwork as smooth as possible.
- **Took charge in migrating the code base to a newer React version**. Created and followed a detailed step-by-step list of tasks and changes. It allowed the new version to be implemented smoothly and gradually.

BIPA, Junior Innovations Manager

2021 Summer Internship

Worked mainly as an assistant to the innovations manager. Learned about negotiations and what questions to ask when working with clients. Handled a large part of the research process for the supervising manager, therefore allowing him to focus on more value-oriented tasks.

Education

Self-taught Front-end Developer

Using tools like FrontendMasters, freeCodeCamp and some personal projects managed to get my foot in the door and start working professionally.

Bachelors in International Business Management

Lancaster University (UK) and NEOMA Business School (France) - Finished with first-class honors with specialisations in Supply-chain and Finance

Hobbies/Other

Love to teach: Both in the workplace as well as in my hobbies

Enjoy activity: Big proponent of Alpinism, Hiking and Rock climbing as well as Running, Cycling and Swimming

Automotive Enthusiast: Personal automotive projects whether it would be cars or motorcycles.

Languages

Lithuanian - Native

English - Native/C2 level
